Communication, Collaboration, Curiosity, Resilience, Reflection

Learning Log Home Learning CHALLENGES (Summer 2024)

Over a two week period, you are challenged to do one or more of the activities below as part of your home learning. These activities are designed to allow you to share your creative side and learn collaboratively with your siblings and family members. Please colour in the box when your chosen activity is completed.

Area	Challenge
I enjoy Reading	Who is your favourite author and why? Write a biography telling us all about him or her.
I enjoy Writing	Design a persuasive leaflet for a new theme park or outdoor activity centre that is opening in Manchester in the summer months.
I enjoy Maths	Conduct a survey and present your findings. It could be a local traffic survey, favourite meals, most watched programmes, fruits and vegetables eaten each week etc. Collect data for, present it and draw conclusions from it. Come up with a question and investigate it! E.g. 'Are Cheese and Onion the best flavour of crisps?'
I enjoy Designing/Art	Research an artist you have learnt about in school and create a portrait using that artist's style.
I enjoy Science	You will have noticed that in Spring and Summer, the nights are getting shorter and the days are getting longer! Write a research report to explain why this happens. You may want to make a mini model of the earth and the sun to help you! Or draw some pictures. It is your choice!
I enjoy Geography	Keep a weather diary and/or make a weather recording instrument and explain how it works.
I enjoy History	Find out about your family's history - create a family tree and explain some interesting facts about what makes your family so special!
I enjoy RE	Research one of the patron saints of the countries of the UK - St George, St David, St Andrew or St Patrick - and produce a fact sheet about them.
I enjoy Spanish	Create a Spanish calendar ready for our next school year. Remember to use your knowledge of Spanish vocabulary for the months of the year and days of the week.
I enjoy Computing	Create a leaflet about a subject of your choice on word or publisher.
I enjoy PE	Design a new game you could play as a team. The team must have between 5 and 10 players and involve a method of scoring. Write a set of instructions on how to play the game and/or plan a lesson in which you could teach the rest of your class how to play.
I enjoy Music	Have a go at writing your own song. It could be about the weather, your favourite thing or even your family.
I enjoy Wellbeing	Go for a walk around your local area or an interesting place. Take pictures to record what you see.
I enjoy...	What is your own Home Learning task you would like to complete? Record it below...
I enjoy...	What is your own Home Learning task you would like to complete? Record it below...

Learning Logs are due in by:

Monday 29th April 2024

Monday 13th May 2024

Monday 10th June 2024

Monday 24th June 2024

Monday 8th July 2024
